Group Meeting

Brandon Gusto

Dept. of Scientific Computing
Florida State University

August 5, 2019

Highlights

Highlights

Highlights

Highlights

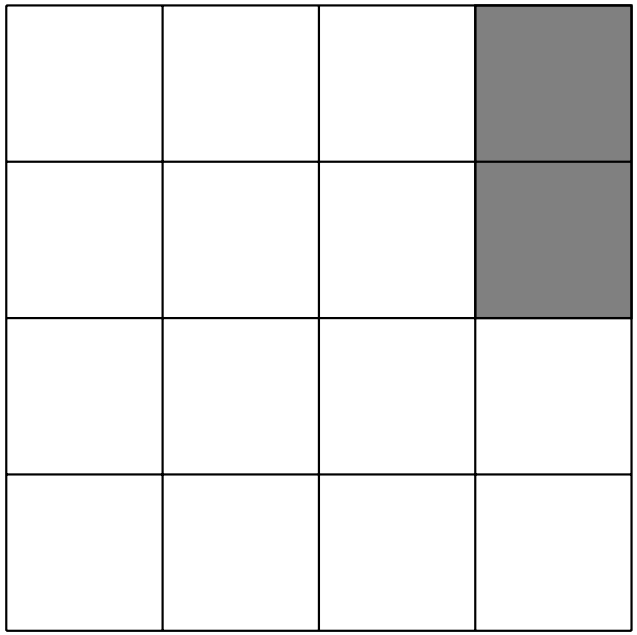
- Identified Multiresolution/AMR issue: multiresolution-based prolongation routine caused artifacts

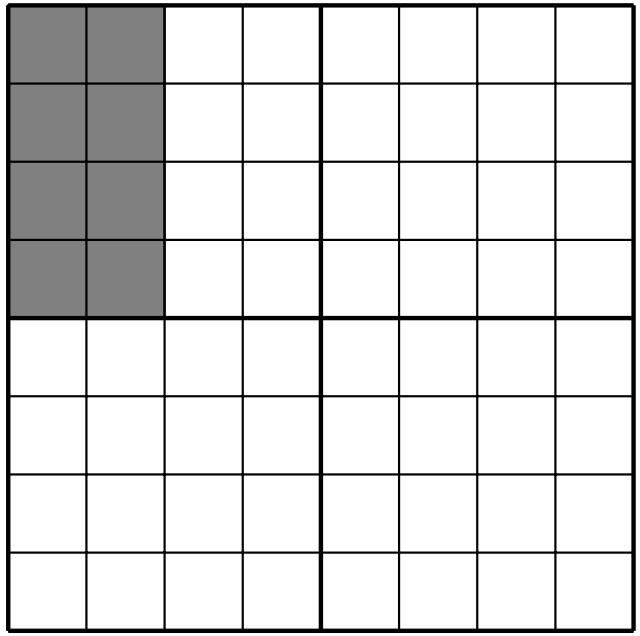
Highlights

Highlights

- Identified Multiresolution/AMR issue: multiresolution-based prolongation routine caused artifacts
- Multiresolution scheme works well in parallel, as long as buffer region is not added

Buffer Region Filling





Task List (TO-BE-COMPLETED)

Tasks

Task List (TO-BE-COMPLETED)

Tasks

- Complete mask filling cases for 2D

Task List (TO-BE-COMPLETED)

Tasks

- Complete mask filling cases for 2D
- Parallel communication of mask information to blocks across processors (in 1D and 2D)
