

Group Meeting

Week 10, Spring 2019

Brandon Gusto

Dept. of Scientific Computing
Florida State University

March 11, 2019

Recent Progress to Proteus

Following items have been added to my wavelet code over last two weeks:

Recent Progress to Proteus

Following items have been added to my wavelet code over last two weeks:

- ▶ added all parameters to `flash.par`

Recent Progress to Proteus

Following items have been added to my wavelet code over last two weeks:

- ▶ added all parameters to `flash.par`
- ▶ new Matlab script to run convergence studies, modifying `flash.par`

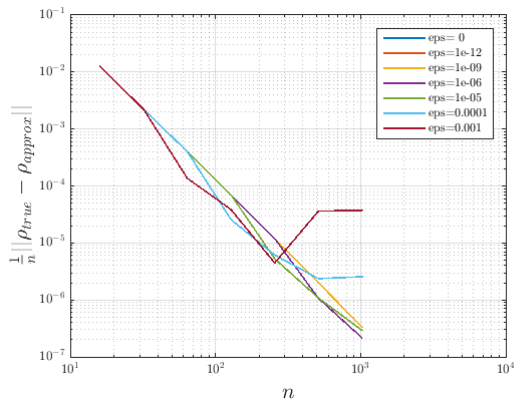

Recent Progress to Proteus

Following items have been added to my wavelet code over last two weeks:

- ▶ added all parameters to `flash.par`
- ▶ new Matlab script to run convergence studies, modifying `flash.par`
- ▶ can specify periodic domain (or not) needed for buffer region and interpolation

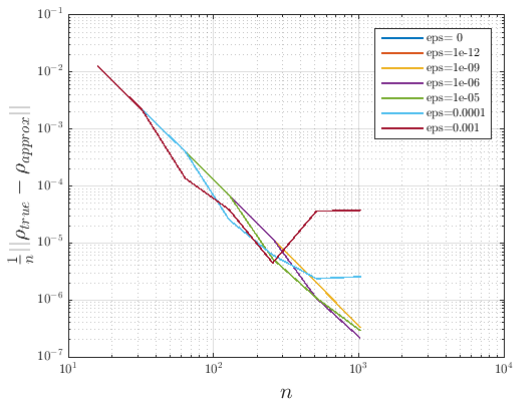

Convergence

With 1 buffer cell per side of a significant cell:

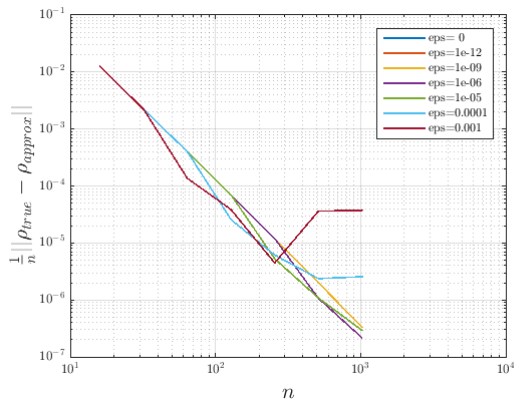

Convergence

With 2 buffer cell per side of a significant cell:

Convergence

With 3 buffer cell per side of a significant cell:

Convergence

With 4 buffer cell per side of a significant cell:
